

A. C01 top-10 eigenmode localization

Gray contours for ranks 2-10: $\Delta\lambda_{1k} = 0.001, 0.005, 0.010$

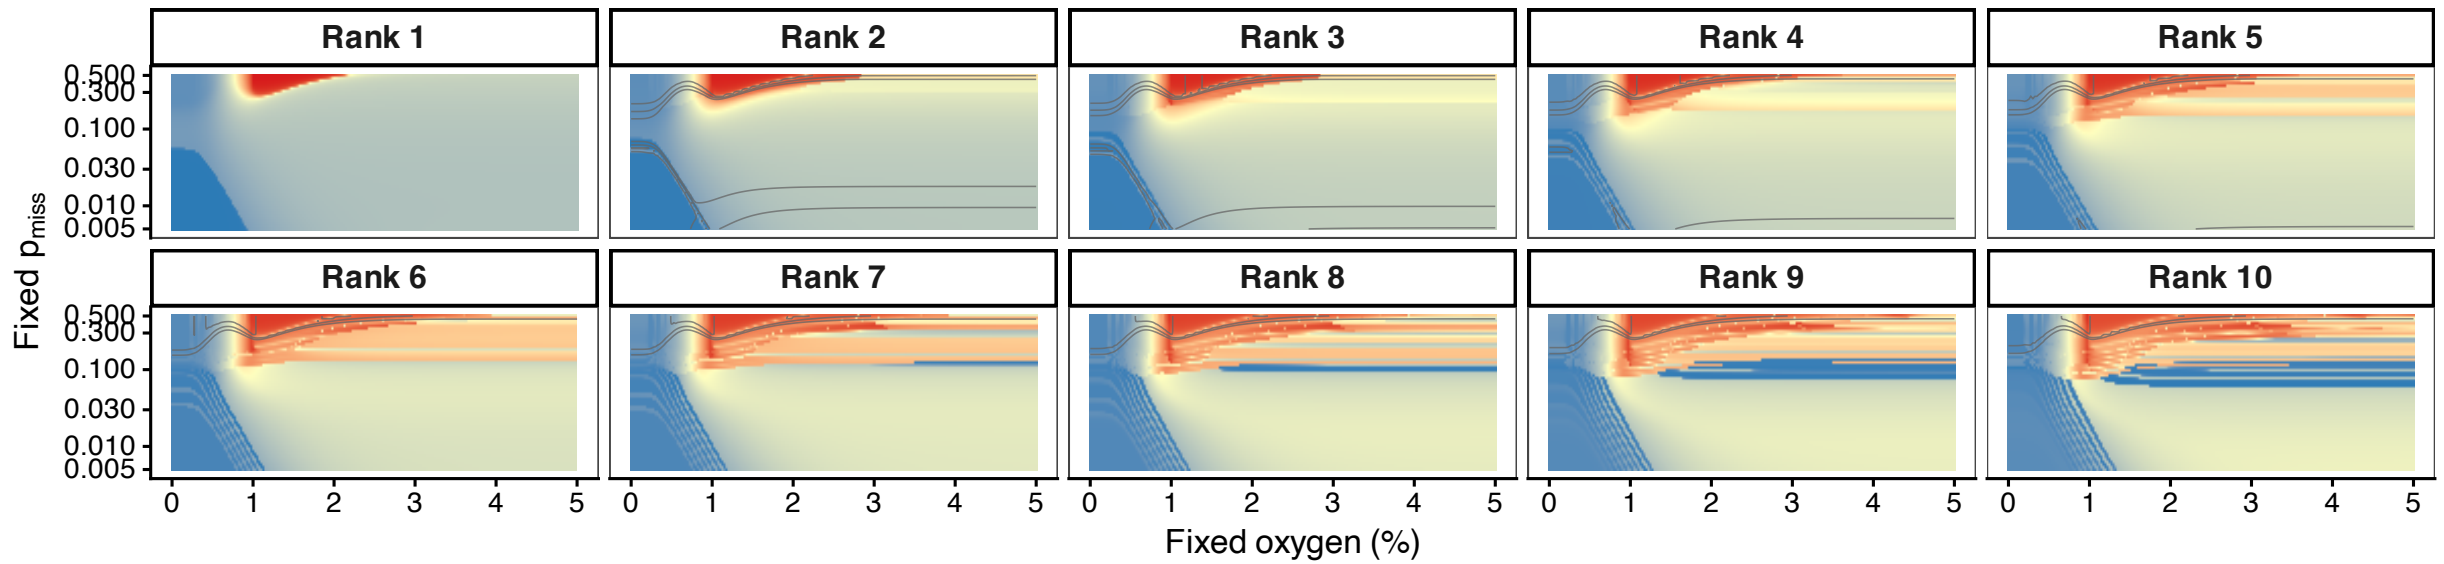

B. C02 top-10 eigenmode localization

Gray contours for ranks 2-10: $\Delta\lambda_{1k} = 0.001, 0.005, 0.010$

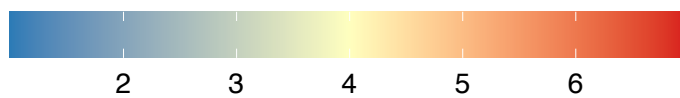

C. C03 top-10 eigenmode localization

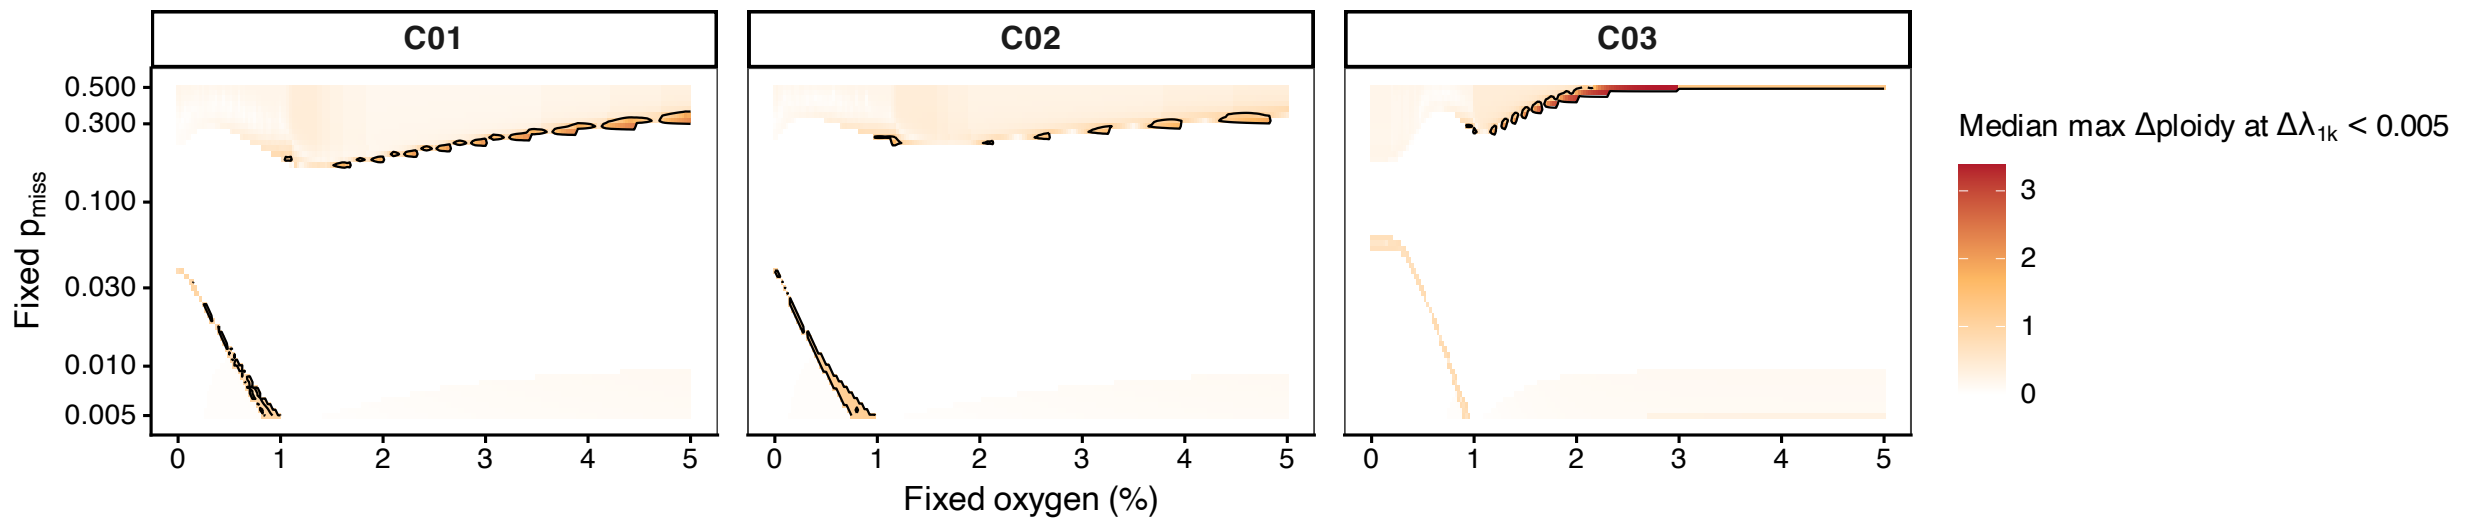

Gray contours for ranks 2-10: $\Delta\lambda_{1k} = 0.001, 0.005, 0.010$

Median eigenmode-localization
ploidy

D. Near-degenerate eigenmode ploidy-jump potential

E. Gap to the nearest differently localized eigenmode
