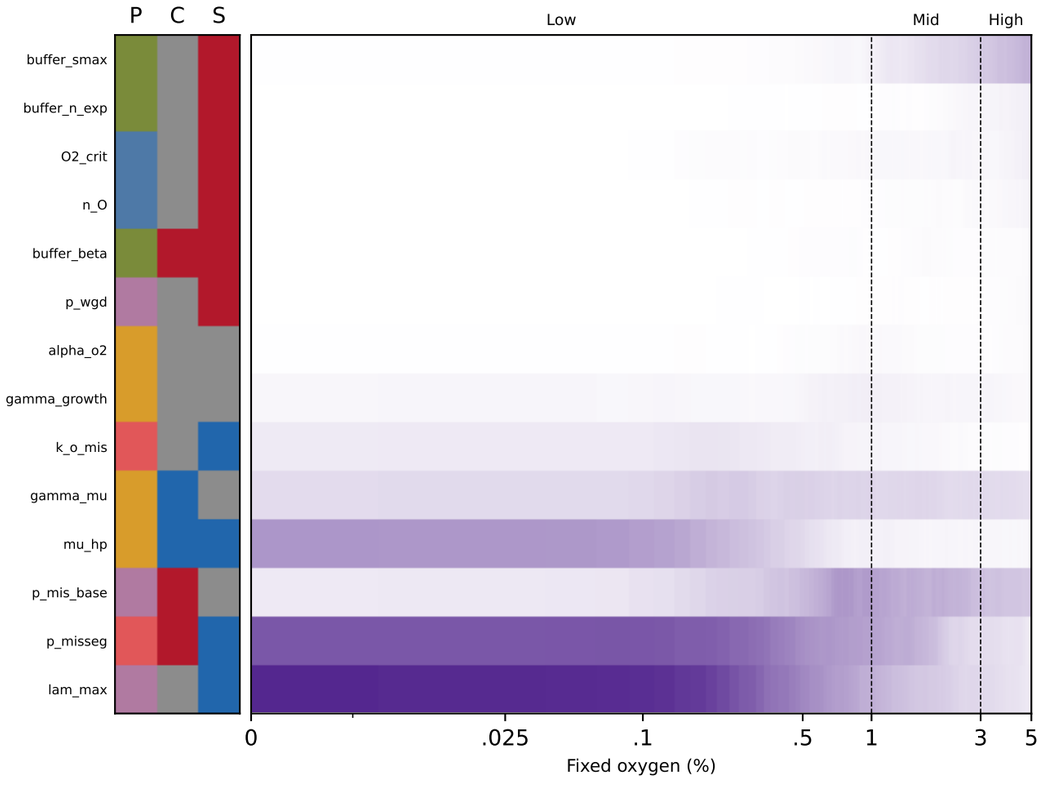
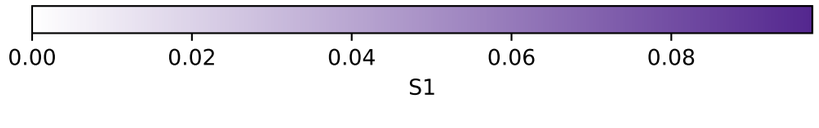
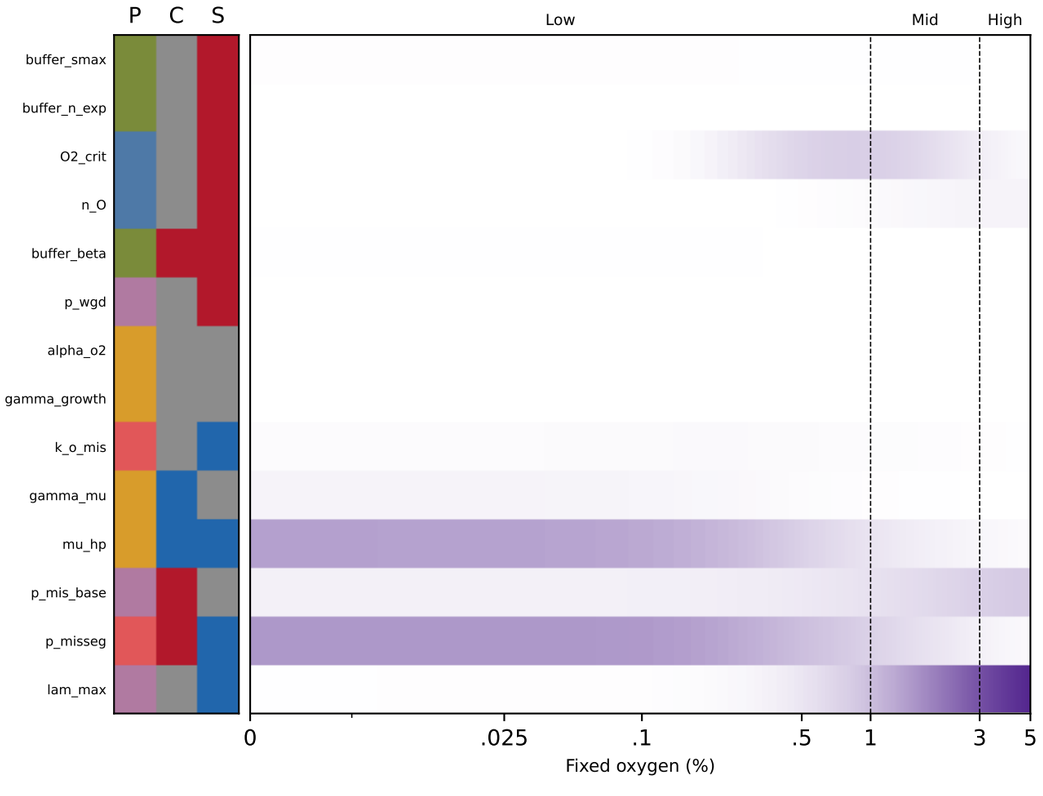
Global eFAST N2049 M4; five independent repeats

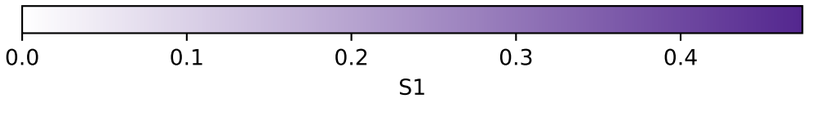
S1: Ploidy



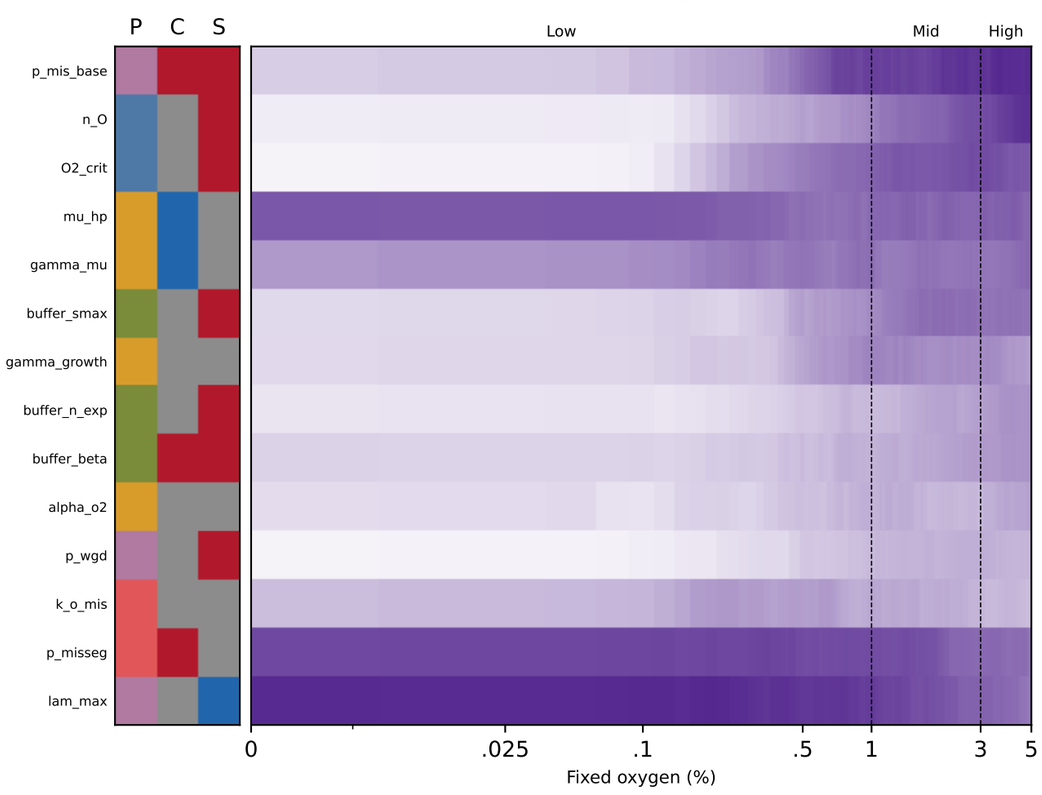


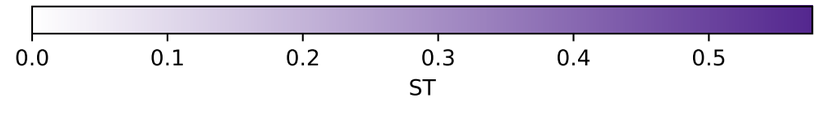
S1: Net live-cell growth rate



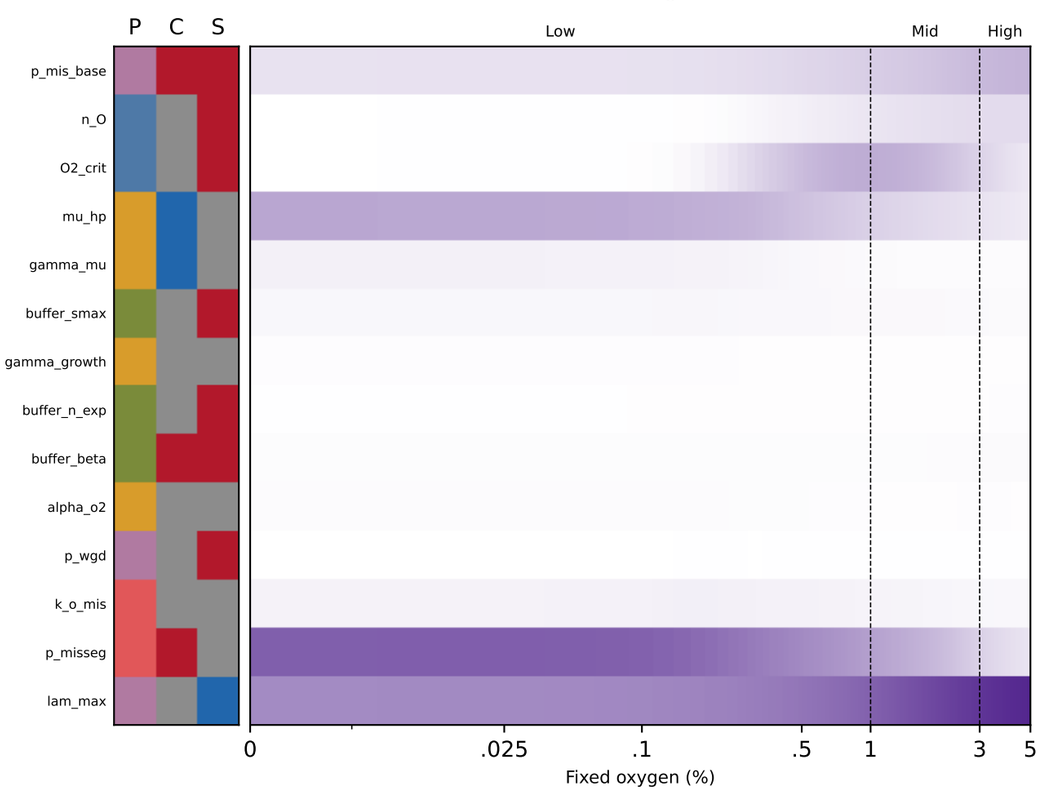


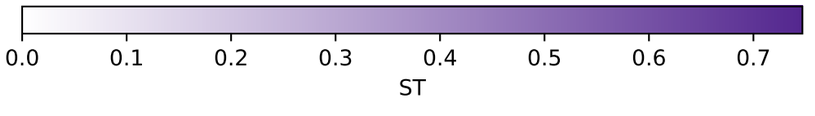
ST: Ploidy





ST: Net live-cell growth rate





P: biological process; C: Figure 4B correlation O2 group; S: ploidy sensitivity O2 preference.
S is also ploidy-based on growth panels; exploratory grouping is separate from convergence.
O2 axis: linear 0-0.025%, logarithmic above; dashed boundaries: 1% and 3%.
